

Sandwell Well-being Charter Mark

Our school became involved in Sandwell's Well-being Charter Mark. The process allowed the school to explore areas of success and development across eight categories. We have worked alongside Inclusion Support Staff to carry out an action plan created via the feedback from parents, staff and pupils.

In November 2017, the school was accredited with the Sandwell Well-being Charter Mark. This has recognised all the work the school does around the social and emotional well-being for all young people, staff and families.
